

After prayerfully considering numerous projects from partners and non-partners, we are happy to inform you that the Outreach Budget Team decided to **financially support 22 projects**. Here are the projects Grace Church will be funding:

- 1. Church Planting in Thailand** - We are helping fund Evangelism and Leadership Training for a Church Plant that was started last year and it's daughter churches. This is one of the most unreached areas in the world!
- 2. Freedom Fire** - We are helping Freedom Fire purchase equipment and a truck so that they can have a mobile church service that is brought to the doors of those they are ministering to.
- 3. Victory Soccer Camps** - We are helping fund 6 weeks of soccer camps. Victory Through Jesus Sports Ministry exists to see churches utilize soccer as an evangelism and discipleship tool. In the past 15 years they have shared the gospel with 15,000 kids and have over 3500 come to Christ.
- 4. Church Planting in Romania** - We are continuing to help them purchase a permanent facility so they can continue to minister in their community. We are also helping them travel back to the USA in order to supplement their monthly support.
- 5. Resource Health** - We are helping fund a 5th location for Resource Health. The new facility will provide a program that includes free pregnancy testing, ultrasounds, education, mentoring, and evangelism. They minister to those who are at risk for abortion in our communities. They have a holistic approach.
- 6. Church Planting in Kurdistan** - We are helping a team with their business platform so they can stay in the country and share the gospel among a people group that only .01% are followers of Jesus.
- 7. Pastor Training in Kurdistan** - We are helping an organization host an event to train local kurdish pastors.
- 8. STUMO Gospel Events** - We are helping the college campus ministry host gospel events to make disciples among college students and prayerfully mobilize them to the unreached.
- 9. Shelter KC** - We are helping Shelter KC start up a ministry incubator that will help provide insight and leadership to new ministries happening in the KC metro area.
- 10. Church Planting in India** - Their vision is "to see India revolutionized by the gospel from the wealthiest Brahmin to the most forgotten street child". We are helping them learn the language to fluency to see that happen.

11. **Ray of Hope Brazil** - We are helping purchase Bibles, emergency help kits for special needs, Discipleship Training, education for at risk girls and Training Jungle Pastors.
12. **Afghanistan Gospel Project** - We are helping to fund a project where the gospel will be shared through social media to reach those who are still in Afghanistan.
13. **Seed Co** - We are helping finish up the phase 2 of the Darata project which consists of the 4 gospels and Acts, they should be done with this at the end of 2022.
14. **Seeds of Hope Jericho** - We are helping an organization minister to women in the middle east.
15. **Nepal Pastors Training** - We are helping fund the training of rural pastors to help plant churches in remote places where churches do not yet exist.
16. **The Hope Center** - We are helping purchase two lots across the street of their current facility so they can turn it into a usable space. It will be used as a parking spot for teachers and staff and will also be used to host gospel events.
17. **Hope For Ishmael** - We are helping purchase a vehicle that will provide many services to them. One of the ways it will be used is to transport children to meeting locations so they can hear the gospel.
18. **Hope is Alive** - We are helping them furnish the new women's mentoring home and helping them purchase their second men's home.
19. **Mission Southside** - We are financially assisting Mission Southside to host a training event for young leaders in their ministry by taking them to a camp for a weekend leadership retreat.
20. **Radius International** - We are helping Radius create a media room to provide training for churches around the world to reach the unreached.
21. **SOAR** - We are helping SOAR purchase a truck and trailer so they can more easily provide R&R's and camps at churches throughout the KC area.
22. **We Love Kids** - We are funding 6 student scholarships for their year of education. We love kids is a ministry that provides education to children in Cambodia and Vietnam. It is designed to help local churches as well as educate children in poverty to help end the cycle.

Check out this financial break down:

Over **\$250,260 given** to specific projects

\$111,560 will go toward reaching people groups that are **less than 2% gospel believing** followers of Jesus. Praise the LORD with us as we give so the gospel can be preached in our city, our country and all over the globe among people that are considered "UNREACHED & REACHED." Thanks for your giving and prayers.

** The \$250,260 given away for project proposals does not include helping fund our church planters, our regular monthly giving, and the extra giving during COVID
